# MPs versus Councillors

MPs represent  
about 92,000  
people.

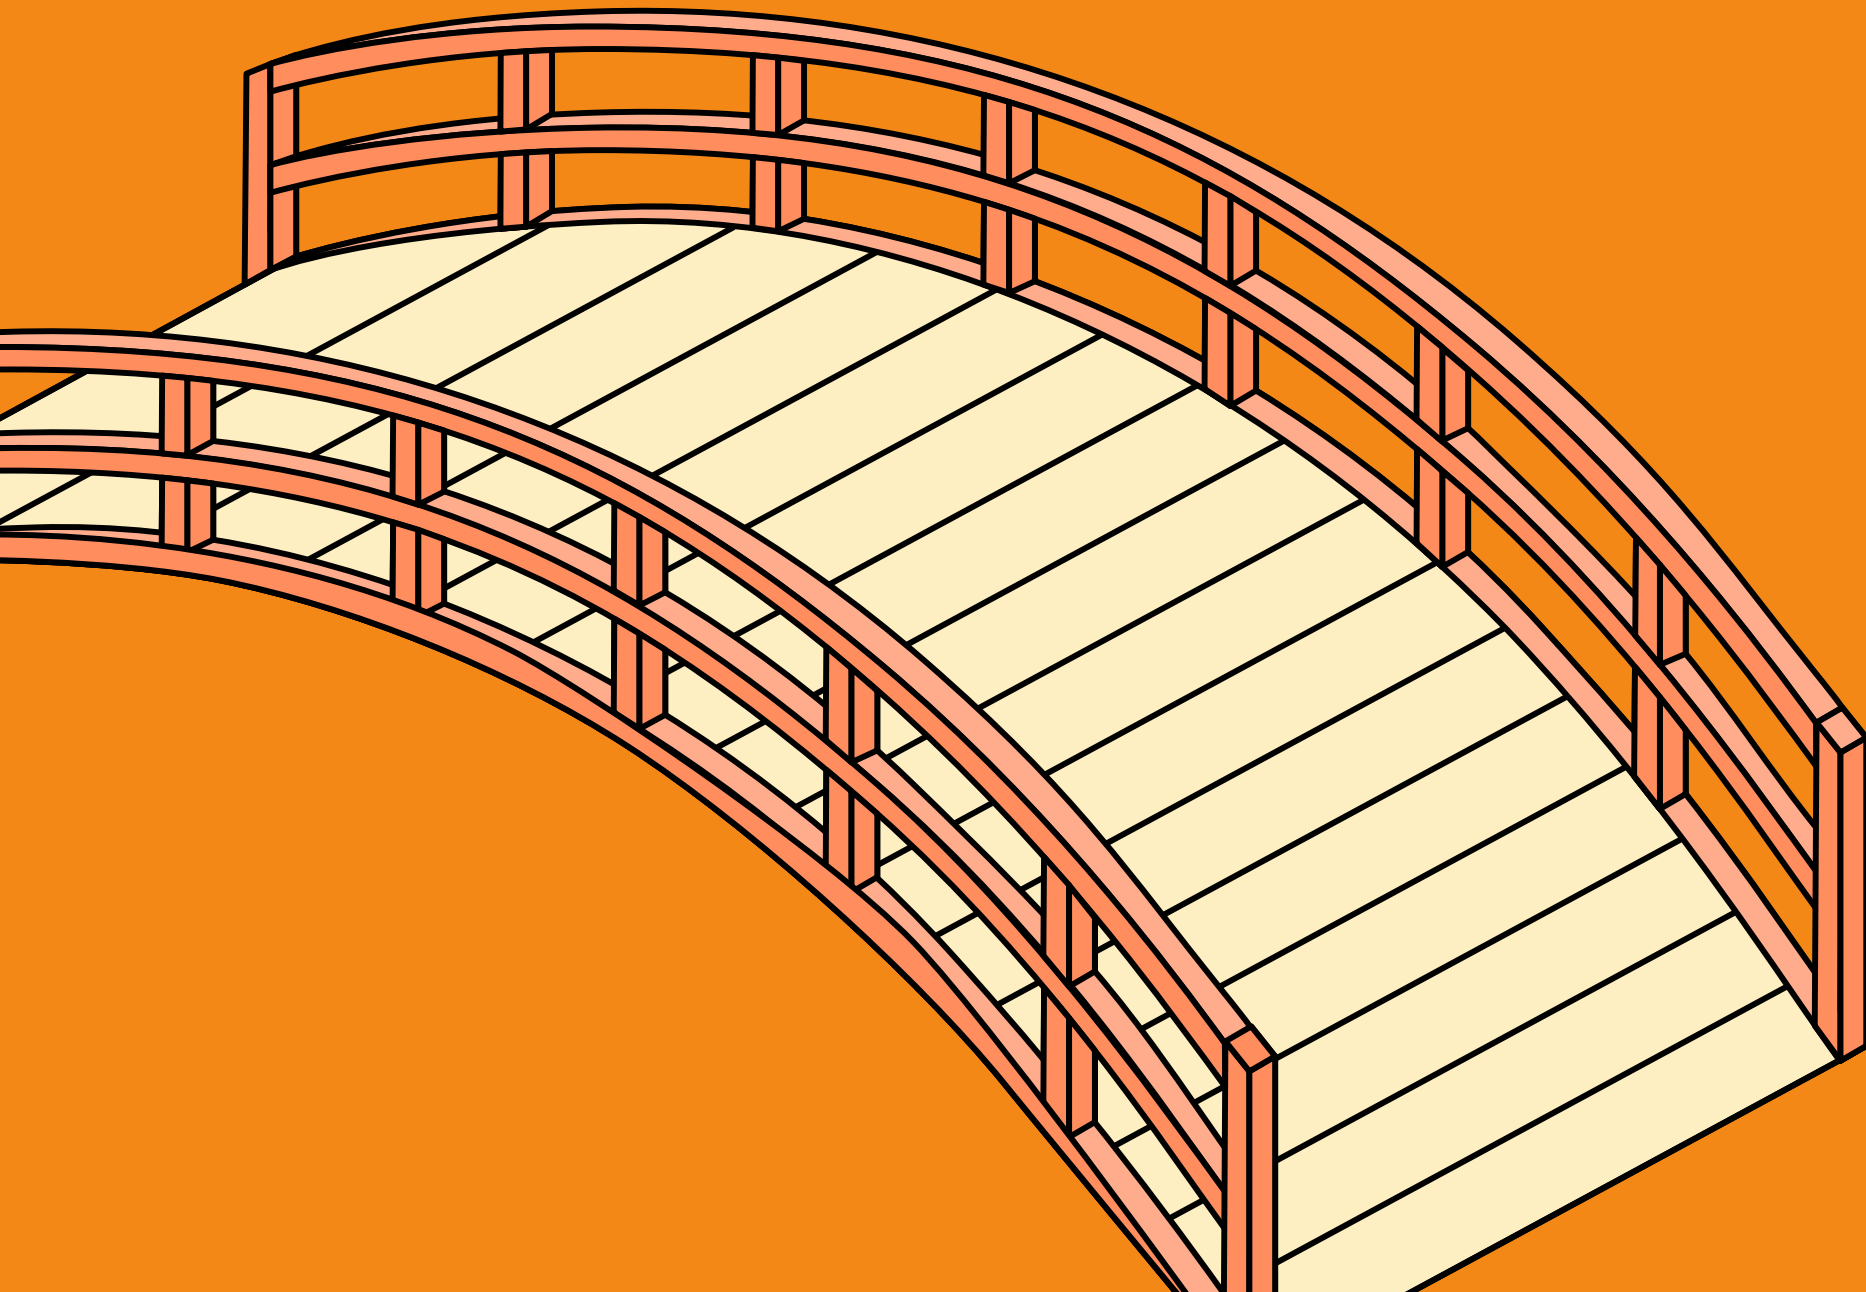

MPs work on local  
and UK-wide  
issues.

Councillors  
represent about  
8,000 people.

Councillors  
focus on local  
issues .

# How do local councillors support democracy?

A councillor's primary role is to represent the people.

Councillors provide a bridge between the community and the council. They do this by speaking up on behalf of local residents and they keep you informed about decisions that are being made about the issues that affect and matter to you.

# Why does local democracy matter?

Local communities are important for democracy.

Democracy means citizens have a choice about who represents their areas views to the Council.

Democracy supports (but does not always achieve) equal rights for all citizens.

Democracy provides a system to deal with a range of different views in the decision-making process.
